Damage Is About \$5000
to Second and Harrison
St. Structure

FIRE which destroyed a two-story frame building at Second and Harrison streets, shortly after 8 o'clock this morning, caused damage to the extent of \$5000 and nearly resulted in the death of Mrs. Ng Ghan, 321 Second street, who was rescued from her smoke-filled room by Patrolman J. W. Greenlee, who carried her down the rickety stairs to safety. The near-victim of the fire is 35 years of age. Her husband also had a narrow escape. He rushed into the street to call for assistance when he was unable to carry his wife to safety.

The exact cause of the fire is somewhat of a mystery. It is believed to have started in a saloon conducted by Y. B. Sun, 223 Second street. Persons in the vicinity reported that they heard an explosion shortly before the flames burst out.

The lower part of the building was occupied by shops and store rooms belonging to Chinese. The upper part

Although born in France, he is now an American citizen. His wife was Miss Frederica Berwind of Philadelphia. They came to New York for the same purpose when their first boy was born, two years ago.

MRS. CELESTINA RAMOS ROBBINS, FILIPINO GIRL, WHOSE HUSBAND HAS BROUGHT HER TO OAKLAND AND DISAPPEARED.

TINY WOMAN'S SAD STORY OF TRIALS

Mrs. Ramos Robbins in Strange Land Without Money or Friends

"Madame Butterfly," the opera of the deserted Japanese maid and the faithless American husband, was enacted in real life in Oakland police headquarters yesterday, when this Celestina Ramos Robbins, a Filipino girl, whose husband, after bringing her to America, left her in a Washington-street lodging-house, and has dropped from sight, appealed to Inspector Tom Woods to aid in locating her spouse. The girl, who is only 20 years of age, told a story that brought tears to the eyes of the hardened police officers, and every effort is being made to locate the missing man.

The couple were married recently in Manila, where Robbins was employed in the government service, and later came to Oakland, Robbins, leaving his wife with a small sum of money in the care of G. M. Götter, proprietor of a lodging-house at 722

THAW LOSES HIS FIGHT IN CANADA

Judge Sustains the Writ and Fugitive Will Be Deported

SHERBROOKE, Sept. 3.—Harry Thaw today lost his fight to defy deportation by remaining in the Sherbrooke jail. Judge Hutchinson this afternoon sustained a writ of habeas corpus calling for his release.

N. K. Laffame of Montreal, one of the most eminent criminal lawyers in the dominion, came here today to reinforce the Thaw lawyers. It was reported today that Mrs. Mary Copley Thaw, mother of the fugitive, would soon arrive in Sherbrooke to argue with counsel for their fees and expenses.

Thaw remained dazed for possibly three minutes when judgment was rendered. The crowd began to leave the judge's chamber in silence. Thaw followed silently, as he crossed the threshold E. Blake Robertson, assistant superintendent of immigration, stepped him on the shoulder and placed him officially under arrest as an undesirable alien.

The crowd then surged from the building and a number of men immediately took to the streets for a hearing.

PASTOR SEEKS LOST WIFE

WAS BRIDE SPIRITED AWAY?

Father of Girl Accused of Placing Her in Hiding

Marriage License Issued But Wedding Is Delayed

Spirited away by her father, it is alleged, on the eve of her marriage, Miss Esther Gladys Salverson, 16 years of age, is being anxiously sought by Clay Alvine Cook, 19 years of age, who yesterday took out a marriage license. The young couple appeared at the county clerk's office accompanied by Mrs. Berthine Salverson of 728 Fifth avenue. Mrs. Salverson gave her written consent to her daughter's marriage and young Cook presented a permit given by his parents, Mr. and Mrs. William B. Cook, and signed before a notary.

All went well until Miss Salverson's father heard of the impending ceremony last evening. He took his daughter away, the mother charges, and an anxious friend, who is looking after the interests of the pair, appealed to Deputy Clerk Matt Riley today for advice in the matter, asking that the marriage be delayed.

The father got wind of the ceremony somehow, said the mysterious stranger. "He took the girl away and put her in a prison. One of his other daughters got married without his knowledge and he objected to the same thing occurring again."

The parents of Cook reside in Oakland. He has been working in Gilroy.

Just where his fiancée has been taken is a question that is troubling the groom-to-be, or not-to-be, today. He is still intent upon the ceremony and the "mysterious stranger" intimated that "love would find a way."

RESENTS NOISE OF GAME AND SHOTS

Albert Albright Is Too Handy With Gun; Arrested

While Father Barry of St. Patrick's church was playing handball with a number of boys of the parish in a big barn in Peralta street, Albert J. Albright, a hollermaker, worried with the sound of hammering on a rumbling, boiler, was trying to sleep in his room at 1214 Peralta street. The boys grew excited and cheered on the contestants as the game proceeded.

Albright became excited. He called out from his room. The boys thought he was joining in the cheering.

Suddenly a shot rang out and a bullet penetrated the wall of the barn, whizzed across the space passing between two of the players, and dropped spent against the further wall. Father Barry realized the danger the boys had been exposed to, and notified the police.

Albright was arrested and booked for discharging firearms within the city limits. He has been released on \$500 bail.

Father Barry explained to him that there were other ways of requesting quiet while he slept than by shooting at the players.

WASHINGTON, Sept. 3.—The Hatch-Hetchy bill to enable the city of San Francisco to utilize the Hetch-Hetchy basin, in the Sierra Nevada mountains, 142 miles away, as a water supply, was passed by the House today, 183 to 43. The bill now goes to the Senate.

The bill was completed yesterday under the five-minute rule, the House had voted to accept all the amendments, and the final vote on the measure was impending when Representative Stevenson of Minnesota, chief opponent of the legislation, demanded that the engrossed bill be read, which caused the bill to go over.

An amendment by Representative Baker was adopted, providing that the United States shall have the power to begin suit in a federal court to annul the contract between the government and San Francisco if the city and county fail to observe the contract as provided for in the bill.

SAYS SHE HAS BEEN STOLEN

Rev. Franklyn Mandeville Blames Relatives for Troubles

Habeas Corpus Proceedings About to Be Invoked

Habeas corpus proceedings are about to be invoked by Franklyn V. Mandeville, a traveling preacher of San Francisco, to obtain possession of his bride of less than two weeks, who, he says, was spirited away from him by her relatives last Friday night in Oakland.

The former Mrs. Laura Perry, daughter of Mrs. F. R. Dray, a wealthy woman living at 1711 P-street, Sacramento, is the bride who is being sought by Rev. Mandeville. He has appealed to Attorneys Rose and Silberstein to take up his case and preparations are being made for the petition of habeas corpus.

Rev. Mandeville and Mrs. Perry took out a marriage license in the office of the county clerk on August 21. They were later married by Justice of the Peace Geary and immediately left for a honeymoon which included the minister's itinerary in the San Joaquin valley.

COME TO OAKLAND
Last Thursday they stopped at Warren Chase for a religious meeting. At that place they were met by William Dray, a brother of Mrs. Mandeville, who had driven from his Los Angeles home in an automobile to intercept the newlyweds. The brother represented that there was a warrant out for the arrest of the preacher and under that pretext, it is said, induced the couple to return with him to Oakland.

About a year ago Mrs. Perry was declared an incompetent in the Superior court.

CAMINETTI WILL TAKE THE STAND

Defense Will Attempt to Throw Blame on Diggs; Rumor

SAN FRANCISCO, Sept. 3.—With the testimony of Warren Doane, an official stenographer of Sacramento, who took down the statements of Marsha Warrington and Lola Norris, on the train bound from Reno to the Capital City, and also heard remarks made by Maury I. Diggs and F. Drew Caminetti, the prosecution this morning closed their side of the Caminetti case. The defense then began its inquest, which the court hopes can be concluded this afternoon, but which Attorney Luke Howe may continue until noon tomorrow. In the event that the taking of testimony is not finished today, the case will not reach the jury until Friday, but Judge Van Fleet and the attorney for the prosecution are anxious to have it submitted by tomorrow night.

The defendant will take the stand and testify as did Maury I. Diggs. There will be some eight other witnesses, and the line of the defense will be to shift the blame as far as possible on Diggs by insinuating, and to set up the claim that Rene was an act of thought and that Los Angeles was the original destination planned for the elopement.

TOOK SWORN TESTIMONY.
Warren Doane, the official reporter from Sacramento, read some damaging testimony so far as the defendant was concerned. He told of taking the statements of Caminetti while on the train from Reno, at which Lola Norris, Marsha Warrington, Maury I. Diggs and F. E. Atkinson, assistant district attorney of Sacramento, were present. Reading from his transcription of the report, Doane declared Atkinson had asked Caminetti if you tell Miss Norris that you would marry her before you left Sacramento?

"I believe I did," was Caminetti's reply.

Miss Norris had previously told the de-

WARNED OF HUSBAND'S COMING

Clerk Flees From Another Man's Wife in Another's Clothes

W. G. King Injured in a Leap From Window; Contractor May Sue

SAN FRANCISCO, Sept. 3.—A lightning dash to escape an irate husband which allowed no time for the gathering of scattered wearing apparel, the purloining of a suit of clothes from a slumbering lodger, an ill-advised drop from a third-story window, a sprained ankle and painful bruises, a trip to the hospital, and, as a possible consequence, a heavy damage suit, figure in the experience of W. G. King, a Southern Pacific clerk, at an early hour this morning. Moreover, Henry Chase, a wealthy contractor, residing at the Hotel Manx, claims to have completed his chain of evidence against his own wife and King and their alleged relations, and was found in his own apartment this morning, exhausted from his night of vigil in watching the escapades of the pair.

Gustave A. Berscherd Jr., who resides at the Hotel Raymond, was startled at an early hour when a man dived into his room through the window, seized his clothes, forgetting one shoe, and ran. Berscherd shouted for the police and the scrambling that followed led to the testimony of Henry Chase was on his trail. He dropped to the street, was picked up by Police-man Grusch and hurried to the Central Emergency Hospital.

Previous to that some startling things had been happening.

WOMAN LOYAL TO COMPANION.

The woman in the case, who has been registered at the Hotel Raymond since August 25 as Mrs. A. J. Alexander, is loyal to King, who she tried to save in every way, and whose clothes she was carrying from the hotel when she was intercepted by the police. She went to the hospital to comfort the man, but would make no statement. King also remained mute. The only story was told by the husband, who claims to have been outraged.

"We have been married about a year," he declared, when seen at his hotel a few hours after the escape. "My wife is very beautiful and I was proud of her. She left me in July. She has been receiving attentions from King all these months, but they have not been living together. I have been following them. I do not intend to get a divorce just yet, but I wanted the evidence, in case I might want to bring some action. I watched my wife when she was at the hotel and saw her with King. I obtained a point of vantage. I saw my wife and this man, who calls himself King. I watched them cook their supper. Later, when I thought they had retired, I telephoned for the police. While I was away some one must have warned them."

PHILIPINO BRIDE DESERTED HERE

Mrs. Ramos Robbins Says Her Husband Has Left Her Penniless.

Washington street, went to Kentucky to visit his parents.

On his way back he was seriously injured in a railroad wreck, and this he believed to have been the cause of his subsequent action. He was struck on the head and rendered deaf by the shock, and it is believed that injury affected his brain. Arriving in Oakland yesterday, he indulged in a furious quarrel with his wife, and then left Oakland. No trace of him has been found.

He declared the girl today, "and besides a little which I have, there is nothing left for me to live on, and I cannot get home. He was a good man until the wreck, which seems to have affected his head. I don't know what to do."

Mrs. Robbins has enlisted the sympathy of the inmates of the lodging house where she lives, and all are attempting to assist her. The girl has a sister, Mrs. Tom Johnson of Santa Cruz, and the latter will be asked to aid her until the husband is located.

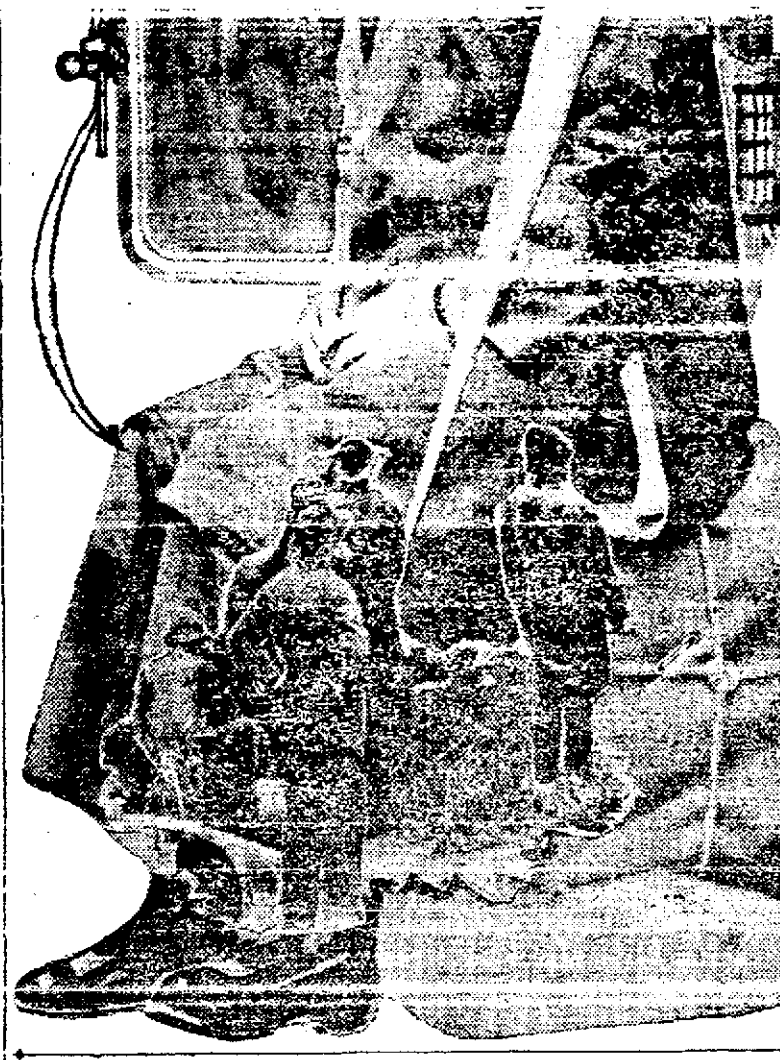

The couple came to Oakland from the Philippines after their marriage. Robbins at the time, says his wife, had about \$2000. He declared that he desired to visit his family in Kentucky, but did not wish to take her with him. He promised to return. During his visit he wrote to her on several occasions. He returned this week, and a short time after the couple quarreled. Robbins angrily said good-bys and yesterday disappeared.

"I don't understand it at all," declared Mrs. M. Griffin, housekeeper at the rooming-house. The couple seemed devoted, and until this quarrel. The husband always took care of her, cannot speak much English, and is too small and frail to work. We are all very sorry, and are doing all we can to aid her."

"I am afraid he does not love me any more," said Mrs. Robbins. "If he had put me on the boat and sent me home I wouldn't have cared so much, but the way he left me here, in a strange country, is terrible. I don't know what I am going to do."

The girl's relatives in Manila and her sister in Santa Cruz have been notified, and in the meantime the police are looking for the husband. The man is described as 32 years of age, about five feet eight inches in height and dark in complexion. The girl is a little under five feet in height, dark and olive skinned and has recently been ill. Her sister in Santa Cruz is the wife of a mechanic.

Patrolman Greenlee, Hero Braves Flames in Rescue

was used for residence purposes and nearly 150 Chinese occupied the entire structure.

Pandemonium reigned for a brief interval while the occupants hustled about carrying their household goods to places of safety. So dense was the smoke that the firemen had difficulty in entering the building.

Under the direction of Fire Chief Ball the salt water system was placed in commission, a two-lead line of hose being attached to a double nozzle. With this the stream was forced through the thin shell of the structure, and considering the character of the fire the flames were gotten under control in a remarkably short time.

The building was one of a large number in that section of the city which were remodeled after the San Francisco fire for the accommodation of the influx of Chinese. It was under lease by J. J. McElroy.

The building is located adjoining the office and yards of the Hagan Lumber Company. On Second street, it also adjoined the two-story brick building containing the Southern Pacific Electric line supplies at Second and Webster streets. The flames were confined to the heart of the burning building and to the fact that the air was still and the salt water system brought into action quickly is attributed the moderate damage.

Police Save Woman and Two Children

In an early morning fire Mrs. S. Shaves, 2351 Magnolia street, was

caught by the flames and with the aid of a policeman and her husband was saved, with her two children. Bertram and Lester, aged 4 and 3 years. The fire was of unknown origin and started in an unoccupied cottage at 2847 Magnolia street, spread to a stable and storehouse at 2803 Union street, and threatened the home of Mrs. Shaves and her two boys.

The fire started at 2:30 o'clock this morning. Engine No. 2 and other fire companies responded. Before the flames were under control the cottage was almost a total loss, and the flames had spread to the two adjoining cottages on either side.

Flames and smoke pouring in through the windows awakened Mrs. Shaves to her danger. She and her two little boys were almost suffocated by the volumes of smoke.

Corporal Bergson, with Patrolmen Bergson, Drury and Blewett rushed to the scene and broke through the windows. Mrs. Shaves and her two boys were dragged from their beds and carried into the open air, where they were revived. Neighbors provided coverings, as they were in their scanty night attire.

The cottage destroyed was the property of W. R. Gift and was a total loss. The damage is estimated at \$2000, not covered by insurance.

A pigeon cote, containing 48 birds, was destroyed by the flames, despite the efforts of the firemen to rescue the birds, after the families in the adjoining cottages had been carried to safety.

up his case. They have communicated with the mother of the bride in Sacramento. She will probably be brought into court to explain the situation.

WHAT HE CLAIMS

"She is no more incompetent than I am," said Rev. Mandeville today. "There is a peculiar aspect to the whole proceedings and I am going to get to the bottom of it through my attorneys."

Rev. Mandeville explained that he was lonesome and he found in Mrs. Perry an ideal companion to assist him in his meetings. He is connected with the Maude Booth Home of San Francisco in the interest of which he travels about the state. His offices are with the Y. M. C. A. at 307 City Hall avenue, San Francisco, where he makes his headquarters.

ELECTRICITY IS USED TO GROW VEGETABLES

LIBERTYVILLE, Ill., Sept. 3.—Raising vegetables, grains and fruits by electricity is the very latest in scientific farming.

The "electric method" of forcing an abundant field is being used by Samuel Insull, president of the Commonwealth Edison Company, on his farm near Libertyville Saturday. To all those who visit the Lake county fair, which opens in Libertyville Saturday, Insull's "electric" fruits, vegetables and grains will be exhibited.

"Any one who knows anything about electricity knows that it is a great fertilizer," said Mr. Insull. "In the early spring when one wishes to force onions and radishes, the current is applied more frequently, and one can almost see things grow."

BROTHER EXPLAINS

The brother explained to the bridegroom that as his sister had been declared incompetent, the family desired to go into court and have the order set aside. That was the object of the trip to Oakland.

The party arrived in Oakland at midnight last Friday. The brother explained that it would be better for Mandeville to go to a separate hotel. Accordingly he put up at the St. Paul hotel, Twelfth and Clay streets.

At the conclusion of the day Mrs. Mandeville would return in the morning and that the party would then go into court to have the decree of incompetency set aside.

When morning came Rev. Mandeville anxiously awaited his bride and her brother. They did not appear at the set time. He is still waiting and so impatient he has become that he visited the office of the county clerk to find out if he really was married. Then he was referred to Attorneys Ross and Silverstein, who have taken

tion. The contractor wanted a witness. Together they burst into Mrs. Chase's apartment. She was alone, but a man's coat and vest and other clothing were on a chair. Chase wanted to confiscate them, but the patrolman, having no evidence of wrong-doing as yet, would not permit it. Meantime an adjoining room was entered, but an inoffensive lodger had seen nothing of any man.

Whether warned by the police or not, King jumped out of a skylight and entered the room of Beresford, who is connected with the Johns-Manville Company. Without a word King took all the clothing he could lay his hands on and broke for liberty. The hotel was in an uproar, and although Chase was a safe distance away, King did not know it. His plunge from the third-story window might have killed him, but he was able to limp around the corner and put on the clothes which he had gathered.

Patrolman Plume and Chase, not having found their man, left the house and the contractor returned to his hotel, believing that his man had escaped.

FINDS KING INJURED.

When Patrolman Grusch discovered King he was bleeding badly and in a disheveled condition. He was treated at the hospital. He would make no statement other than that the detectives were after him. A short time afterward Officer Carr saw a woman leave the hotel with a suitcase. She gazed furtively about, and as her actions seemed suspicious he questioned her as to the contents of her bag. Not receiving satisfactory replies he opened it, and found King's clothes. She was taken to the Central Emergency Hospital, where she had a conference with King. Neither would make a statement, but the woman still said that her name was Mrs. J. J. Alexander.

LEARNS OF CAPTURE.

Chase did not know of King's injury and the subsequent details until informed by a reporter. He then hurried off to the Central Emergency Hospital.

"I thought his name was King, although I was not sure," he explained. "I know where he lives, on Leavenworth street. I have talked to his mother. I am not through with this matter yet."

When Chase was asked if he had a revolver and had intended any spectacular demonstration, he replied:

"Oh, no. I have another purpose in view. Of course, I may want this evidence in a divorce action later."

It is understood that Chase's purpose is to bring a suit against King for alienating his wife's affections.

CHASE IS ON FOR 4 SAFECRACKERS

Fresno Sheriff Flees in Auto With Men Under Arrest.

SAN FRANCISCO, Sept. 3.—A sensational automobile chase which may extend from this city to Fresno is in progress today as the result of the refusal of Superior Judge Sabanis to grant a writ of habeas corpus for the release of Clarence French, George Ashton, Harvey Taylor and John O'Keefe, the gang of safe crackers.

The four are wanted by the sheriff of Fresno county, who claims to have good cases against them. Their counsel, Attorney Carroll Cook, had them in court to fight for their release. They were denied release and as soon as Judge Sabanis dismissed the writ the sheriff and his deputies clapped handcuffs on their wrists, dashed from the courtroom and rushed them into a waiting automobile.

Cook had intended other legal measures and he jumped in another machine and attempted a pursuit. The Fresno sheriff declared that he would not stop until he reached his home town.

Policeman Stalks Accused Burglars

SAN FRANCISCO, Sept. 3.—After Policeman Gorman had hidden for two nights in the room of Russell Lytle, and watched the latter return home laden with loot, he brought about the arrest of a gang of three alleged trans-burglars, declared to have perpetrated about 50 crimes in the past two months in the bay cities. Lytle was first caught last night, and lodged in the city prison, and this morning Thomas Smith and Jack Arnold, aged 19 and 16 respectively, were taken into custody by Gorman, aided by Patrolman William Reilly. Two months ago the trio came here from the East. Smith and Arnold are from Boston, and Lytle from Pittsburg.

Climate Failed; Medicine Effective

Rest, fresh air and well-cooked, nourishing food do help many persons suffering with Lung Trouble. But in many cases the disease is only temporarily "arrested," and something more is needed. Eckman's Alternative is a medicine for Throat and Lung Trouble and has brought about many complete recoveries—in many cases where the surroundings were not ideal. Judging by the many reports of recoveries received, we believe it should be used in every case of Lung Trouble. A remarkable case follows:

"My Dear Sir: Through your instrumentality I have been saved from a premature grave. On December 15, 1904, I was taken with Typhoid Pneumonia, which developed into Consumption. In February, 1905, I went to Fort Worth, Texas, and later to Canon City, Colo. After being there two weeks, my physician informed me that my case was hopeless. Three weeks later I returned home, weighing 103 pounds, the doctor having given me no assurance of reaching there alive."

"On July 11, 1905, I began taking Eckman's wonderful remedy for Consumption. Today I weigh 125 pounds. I am stout and well and can do any kind of work about my grain elevator."

(Affidavit.)
(Above abbreviated; more on request.)
Eckman's Alternative has been proven by many years' test to be most efficacious in cases of Throat and Lung Affections, Bronchitis, Bronchial Asthma, etc.

tells of the elopement and Atkinson inquired, "Is she telling the truth?"

"I don't want to make a statement," Caminetti answered.

"You intended to divorce your wife and marry Miss Norris, didn't you?"

"I did."

Doane then turned in response to questions by Attorney Marshall Woodworth to his notes on what Miss Norris had said. "You knew it would take six months for Caminetti to get a divorce at Reno, didn't you?"

"Yes."

"Were you willing to live with him under those conditions until he got a divorce and then marry him?"

"I was."

WAS NOT HAPPY.

Miss Norris had said that Caminetti had never told her that his wife was untrue to him, but only that he was not happy with her. He had next declared that he cared more for her than for his wife and children.

"Do you think he would marry a girl who would go with him as you went?" Atkinson's next question, according to Doane's reading.

"Yes, I know he would."

"Do you think he would marry you now if he could?"

"I am sure of it."

"Caminetti, would you?" inquired Atkinson, turning to the defendant.

"I would," was Caminetti's reply at that time.

Miss Norris had stated that she had hoped to get into communication with her family while on the trip. She admitted that she had heard Caminetti make a statement quoted in the newspapers at Reno, in which he said, "that the men had purposely left their wives and families and intended to marry the girls."

Caminetti said that he had acquiesced in the statement and explained, "I don't want you to think me a clerk, but I don't think I made the statement exactly like that. I was asked whether I had made the remark and I told the reporter, 'I will say yes to that.' I was making a facetious remark. I said to them, 'Do you want to hear the story of my life?'"

Attorney Woodworth was much to obtain much information of the kind he sought from the witness under cross examination and left the witness and family and intended to marry the girls."

Van Fleet Doane was ordered to remain within the jurisdiction of the court. He will be interrogated by counsel for the defendant and will probably be called as a witness in behalf of Caminetti.

WOODWORTH OPENS.

The prosecution here closed their case and Attorney Woodworth began the opening statement in behalf of the defendant.

"We intend to show that F. Drew Caminetti did not violate the spirit of the Mann traffic act," he began. "We will prove that it was not his intention to transport Miss Norris to Reno to be his mistress and that whatever he did was accidental and incidental and that he had no immoral purpose."

Woodworth then mentioned some of his witnesses, including the defendant himself, I. P. Diggs, father of Maury I. Diggs, and also the proprietor of the Phippenbrook Theater in Sacramento.

WARNED MISS WARRINGTON.

G. A. Putnam, sporting editor of the Sacramento Bee, was the defense's first witness and told of calling up Marsha Warrington on the telephone and telling her to stop going out with "that man."

He later saw her and gave her the same warning, telling her that the paper would not publish any story about her.

He was followed by D. W. Leitch, a chauffeur of Sacramento who keeps his car in front of O'Brien's saloon.

Attorney Howe examined him as to his overhearing a conversation in which Diemberbrock admonished Caminetti and Diggs.

"Well, he came in there and gave them a blurted Leitch."

"Mr. Leitch, we have to ask you to refrain from that kind of talk," admonished the court. "Just state what was said."

"Well, he told them that he did not want Diggs to bring any more girls in his office. He said he didn't want them to make a disreputable house out of his building."

The witness asserted that Caminetti had told him that the juvenile officers were after him. Cross-questioned by Attorney Matt Sullivan, he stated that he did not remember Diemberbrock speaking about four telephone girls who had been in Diggs' office the night before, but had heard telephone girls mentioned in connection with some stage hands.

'UNWRITTEN LAW' SAVES AMERICAN

Had Killed Chinese Who Assaulted Daughter; Is Released.

SEOUL, Korea, Sept. 3.—Suspension of the sentence of 18 months' penal servitude, pronounced on August 11, on James Mason, American manager of the gold mines at Un-San, for manslaughter, was ordered today, as a result of the prisoner's appeal. At the trial Mason pleaded the "unwritten law" in defending himself against the charge of killing a Chinese mine employee who had committed a criminal assault on his 15-year-old daughter.

The suspension of the sentence is regarded here as equivalent to an acquittal.

The request was made by Assistant Inspector George W. Brown of the U. S. Naval coal depot at Tiburon.

BROKEN HACK SAW FOUND UNDER FLOOR

Sheriff Barnett Begins Investigation of Escape of Bradley and Graham.

So-called "Tool-Proof" Bars Must Have Yielded to Acids.

Beneath the floor of the jail cell occupied until an early hour yesterday morning by Robert Bradley, murderer, and Robert E. Graham, burglar, Deputy Sheriff Harry Woodley today

hack saw which were evidently carelessly thrown away by the jail breakers.

Sheriff Frank Barnett has begun a searching investigation into the escape and every effort will be made to place the responsibility for the assistance Bradley undoubtedly received from the outside. Several clues are being followed at this time.

While considerably nettled over the affair, Sheriff Barnett does not believe Chief Jailer Clark over the escape, as he realized that every precaution was taken which was considered necessary to keep a prisoner in a cell which was guaranteed "tool-proof." The company that built the cells unqualifiedly stood upon the tenacity of their workmanship and at the time they were tested, stated that a man supplied with a hacksaw and blades could not gain his freedom.

MAY HAVE USED ACID
For this reason, the authorities are inclined to believe that Bradley was supplied with some acid to assist him in his work. The appearance of the sawed-off bars indicate that acid had been used freely. They have a bluish tint at the ends, somewhat like a piece of steel that had been thrust into a hot forge. That the whole piece of work was carefully engineered from the outside is the general opinion.

The fifty-foot rope used by the men to escape from the fourth story window was made up of braided strands from six blankets. This was the work of Bradley, who once followed the sea. It is looked upon as an exceedingly clever piece of work, especially when it is considered that it must have been braided in about three hours time.

REWARD FOR CAPTURE
"I believe that the two men are hiding not far from Oakland," said Sheriff Barnett. "Of course we will hear nothing from them until they are captured, and they might be picked up any place most any time."

Descriptions have been sent broadcast throughout the Western States. A reward of \$100 per man has been offered by Sheriff Barnett for their apprehension.

MOTHER PREVENTS CHILD BEING TAKEN AWAY

SAN FRANCISCO, Sept. 3.—A writ of habeas corpus has been granted by Mrs. Ethel Everett, divorced wife of W. R. Van der Norda, to prevent him from taking out of the state their child, which has been in his custody. The youngster is in the care of Mrs. Foster of 1159 Guerrero street, and while it is stated that the child has been abused and insufficiently clothed, one of the attorneys, Judge Hubbard, is of the opinion that the statement that the possibility of the youngster being taken out of the state is the only reason for the suit which was continued until tomorrow for hearing.

STANFORDITES GATHER AT HOTEL OAKLAND

Twenty-five members of the Stanford Club, composed of residents in the bay cities, formerly attending the University at Palo Alto, gathered in the grill room of the Hotel Oakland today for their noon luncheon. Several informal speeches were made by the collegians and a number later joined the meetings of the Tourist Association and the luncheon given to the visitors from Sacramento who come in on the first Oakland-Antioch train from that city.

SAN FRANCISCO, Sept. 3.—J. M. Dixon is divorced from his wife Carmen and recently was ordered to pay \$600, which his wife owes to Dr. F. N. Jacobs, a local dentist. He is also before Police Judge Shortall for not providing for his wife and child. He has made the statement that he will go to jail before paying the \$600.

To Boost State on Continental Hike Los Angeles-New York Walkers Here

THREE CALIFORNIA PILGRIMS: (LEFT TO RIGHT) PAUL W. ANDERSON, FRANCISCO MURPHY III AND HERBERT G. HENNING, WHO ARE TRAVELING ACROSS THE CONTINENT FROM CALIFORNIA TO NEW YORK.

Three talented young entertainers, who have set out to walk and sing their way across the continent in the pleasant task of boosting California, are in Oakland today on the first leg of their journey from Los Angeles to New York.

They are Francis Murphy III, Herbert Henning and Paul W. Anderson. All three are well known to the theatrical profession and are receiving the courtesies of the Orpheum circuit all along the line. This afternoon they occupied a box at the Twelfth street vaudeville house.

Young Murphy is a grandson of the famous temperance advocate of the same name. He has a remarkable baritone and won the Metropolitan opera scholarship for

a full course in voice culture. Henning is a composer, and Anderson a dramatist.

The troubadours will give full publicity to the Portola Festival and the 1931 Exposition.

"We are receiving every possible courtesy," said the youthful leader this morning. "Mayor Rolph of San Francisco went out of his way to entertain us and we were the guests of the St. Francis Palace and the Fairmont hotels while stopping across the bay."

Mayor Rolph has furnished the boys a letter bespeaking the friendliness of the public in their behalf. They leave here tomorrow morning for Sacramento, where they will call on Governor Johnson.

Last night the pilgrims were guests at the Hotel Oakland, where young Murphy delighted the guests with his melodious voice.

BANKERS AFRAID OF WILD-GATING

Financiers Do Not Favor Asset Currency or Credit Notes.

WASHINGTON, Sept. 3.—The kind of national currency the American Bankers' Association would like established in place of the United States treasury notes proposed by the administration currency committee today by bankers who declared they did not favor asset currency or notes secured by the general credit of individual banks because of the danger of "wildcat" notes.

"We believe the notes should be issued by the federal reserve board to the banks and by them to the public, and that all the federal reserve banks should be responsible for the whole issue of notes," said Sol Wexler of New Orleans, one of the spokesmen for the recent bankers' conference at Chicago.

Senator Reed, Democrat, declared he was "winded to no particular currency plan, and throughout the hearing witnesses were questioned with freedom, indicating that the committee would take up the administration plan with open minds.

BABY IS FOUND ON STEPS OF CONSULATE

"Howl" Is His Name and Howl Is His Nature

SAN FRANCISCO, Sept. 3.—"Edgar E. Howl, born August 22. Please take care of me!"

This little note attached to a box in which reposed a beautiful baby boy about 10 days old was found at midnight on a doorstep at 2548 Jackson street, which is the residence of the Japanese Consul, by a messenger boy who had evidently been sent to the house for the express purpose of finding it. Beside the infant was a carton of baby food. The babe was clad in the "nest of raiment, evidently purchased at an expensive establishment. Its clothing had been carefully selected, and it is likely that the infant came into the world under auspicious circumstances and was born of parents of some prominence.

The little foundling was given over to the care of Mrs. T. Gile, nurse at the Central Emergency Hospital. The last name, Howl, is, of course, believed to be fictitious, and perhaps descriptive of the infant's crying propensities. The babe, however, was very good all night at the hospital, and it is expected that before he leaves he will be adopted by one of the many admirers who called to see him this morning.

Gambling Club May Open; Police on Watch

SAN FRANCISCO, Sept. 3.—Chief of Police White stated this morning that he had private information to the effect that streets intended to open full blast tonight. He immediately went into consultation with Assistant District Attorney McNutt and it was arranged to station officers in the vicinity and swoop down upon the gambling rooms should any attempt be made to open up.

The police judges have been somewhat skeptical about issuing search warrants as none of the officers were ready to make affidavits that the club members were playing cards for money. It is thought, however, that the warrants can be obtained this afternoon.

Society Woman Held by U. S. Authorities

CLEVELAND, O., Sept. 3.—Mrs. Margaret A. Carter, Elyria, O., society woman, today is in the county jail, charged by federal authorities with using the mails to defraud. It is alleged that she wrote Miss Lillian Huntington, daughter of W. R. Huntington, retired business man and well-known great lakes yachtsman, asking for \$3000 under pain of having her fiancé, a young Cleveland clubman, taken from her. In the letter she is alleged to have represented herself as a young woman Miss Huntington's

friend and promised to marry, suggesting that if Miss Huntington wanted the young man she must pay the stipulated sum.

PARENTS SUPPORT MOVE FOR FEWER SALOONS

W. C. T. U. Conference Passes Resolutions
Endorsing Clean City Campaign

Resolutions pertaining to civic and social problems were adopted at the closing session of the Parents' Conference and Questionnaire of the Alameda County Women's Christian Temperance Union last evening in the Tenth Avenue Baptist church of this city.

The conference was called to order yesterday morning at 9:30 by Mrs. Cynthia J. A. Jump, former superintendent of the Mothers' Meetings of New York State, who directed the deliberations of yesterday's meetings.

WANT FEWER SALOONS

The resolutions follow:

Resolved, That this conference

the church federation of Oakland to bring about a religious awakening in this city.

Resolved, That this Parents' Conference endorses the movement for the removal of the Oakland High school from the business section of the city.

Resolved, That this Parents' Conference endorses the action of the Board of Education in enforcing the State law against truancies in high schools.

Resolved, That fathers and mothers be urged to impart sex knowledge to their children; and, further, that provision should be made for judicious and private instruction in our public schools in the fundamental principles of sex hygiene.

Resolved, That we endorse the movement to reduce the number of saloons to 200 and that we protest against the increase of the present city revenue from the liquor traffic in any manner whatever.

Resolved, That rejoicing in the general awakening of the public conscience on moral questions, we urge the faithful execution of all the present laws against vice, and the elimination of the segregated district, wherever existing in Alameda county.

Resolved, That we endorse the request of the probation committee of Alameda county addressed to the Board of Supervisors for a Juvenile Court building to accommodate Detention Home, Probation office and Juvenile Court, land and building to cost \$50,000; the present building (rented) is not fireproof, is too small and cannot separate from one another the different classes of children.

A woman physician to look after the girls, with pay, as a man looks after the boys. Dr. Sarah I. Shuey of the probation committee has long done this work without charge, though it is more difficult than that for boys. The physician for boys is paid \$800 per year is asked.

IS HOME LOSING INFLUENCE?

"Home Making" and "The Mothers' Responsibility" was the theme of a symposium yesterday afternoon which was led by Mrs. C. P. Moore, formerly chairman of the prohibition committee of Alameda county, who declared that the modern home is losing its spiritual influence. The terms of matrimony, home-making and motherhood were embraced in her address, which carefully outlined the ideal home life. She said:

"We are living in a strenuous age and the signs of the times seem to indicate a waning of the home spirit and a drifting away of the true home life to an alarming extent. There are many forces at work that make for the decline of the Christian home, and the ideals of family life so tenderly cherished by our forefathers are rapidly passing. The home in the past was a place of spiritual life, a center of social life for the young people. Clubs, hotels, theaters, cafes, dance halls and other similar places of amusement are more and more becoming the meeting places of young men and women, of boys and girls. The modern idea of home seems to be a place in which to sleep and dress, rather than a place of happy, sacred and holy influences that makes for the upbuilding and purifying of society. Blight and decay will follow the breaking down of the sacredness of family relations, and there can be no such thing as Christian civilization without the integrity of the home. Therefore any influence that tends to destroy the sanctity of the home and the marriage relations strikes a blow at the very safeguard and bulwark of society. Almost daily we are confronted with shocking examples of this truth, and our hearts grow sick with the weight of sorrow.

PROBLEMS GREATER

"The problems before the Christian mother were never greater than now, and their solution demands her bravest and wisest effort. Her attitude toward moral questions will, through her children, leave its impress upon the morals of generations yet unborn. If the streams of life flow out through future years to be clean and pure she must see to it that the fountain is kept clean and pure.

"The mother, and not the teacher or the school, should be the source of first information to the child about the sacred things of life and sex. We should teach them the sanctity of the marriage vow and the value of motherhood. We should teach them the dangers and pitfalls that lurk in cheap

shows, dance hall and other so-called places of amusement, and we should place in their hands the class of literature that will contribute to their moral and mental upbuilding."

Those who took part in the discussion upon "The Mothers' Responsibility" were Mrs. R. F. Carter, Mrs. A. J. Kennedy, Dr. Minora Kibbe and Mrs. T. B. Perkins.

DISEASE TRANSMISSION

Dr. Edward von Adelung addressed the afternoon meeting on the subject of "The Transmission of Disease." He described how communicable diseases enter the human body in the form of germs or parasites, how these multiply rapidly, throwing out their toxins

the cause of the body produce a group of symptoms—the disease.

Dr. von Adelung also described the means of distribution of many other more common diseases, such as scarlet fever, diphtheria, smallpox, typhoid fever and cholera.

Avoidance of liquor, excesses in work, or irregular habits, were the means offered for maintaining a high degree of body-cell resistance to disease germs of all kinds.

PROBLEM OF BOYS AND GIRLS

Raymond Hanson, secretary of the boys' department of the San Francisco Young Men's Christian Association, gave his views on "How can we meet the problem of our growing boys and girls?" Rev. Lapsley A. McAfee, pastor of the First Presbyterian church of Berkeley, delivered an address on the question, "What Should Be the Father's Place in the Home?"

"Parents are the most cowardly people I have ever met," said Dr. McAfee. "The mothers and fathers do not exercise the free speech with their children. As the result of ignorance the corruption and evil was becoming appalling.

"Horrible things are being perpetrated in woman's dress. I refer to the X-ray dresses, which have a bad influence upon the boys and men as well as the women themselves. The dresses worn by women lead to corruption and immorality. The looseness of conduct is astounding."

Rev. William Keeney Townner, pastor of the First Baptist church of Oakland, addressed the conference last evening on "How Shall We Build Our Home?" Rev. Orville Coates led the prayer service.

The officers of the conference were Mrs. R. C. Young, secretary; Mrs. C. L. Case, financial secretary; and Mrs. L. A. McClintic, chairman of the committee on courtesies.

The annual Women's Christian Temperance picnic will be held tomorrow in Mosswood Park.

KNOWLAND SAYS TARIFF HARD BLOW TO INDUSTRIES

Every Section of State Will Face Serious Injury, Says Congressman

Congressman and Mrs. Joseph R. Knowland, their daughter, Miss Eleanor, and two sons, Russell and William, arrived at their Alameda home this morning. Representative Knowland expects to return to Washington shortly to vote on the conference report on the tariff bill. The Congressman has been endeavoring to come to California for the past month on business matters relating to his late father's estate, of which he is executor, but remained at the Capital until the tariff bill was taken up and assured of passage. As chairman of the local committee of Native Sons having in charge the arrangements for the Admission Day celebration to be held this year in Oakland, Congressman Knowland was anxious to be in California and assist in celebrating State's admission into the union.

WILL BE RECORD-BREAKER.

"The first and extra session of the Sixty-third Congress promises to be a record-breaker as far as length is concerned," declared Congressman Knowland this morning. "I have served during three extra sessions, but the other two adjourned before September. It is not improbable that the present session will run until December and merge into the hope for adjournment by the last of October or first of November. If it was not for the currency by an adjournment could be easily had by the middle of September. The currency bill has not passed the House. It will be debated in the Senate for weeks and if it passes that body will be in conference for some time. It begins to look as if Congress might, in the near future, remain in continuous session. With the growth of the country the demands upon Congress increase."

"The tariff bill, which will become a law within the next few weeks, strikes at industries in every section of California. The cuts in the rates of duty are so radical that I cannot see how the industries of the State can escape serious injury. I sincerely hope I may be mistaken. If I am, then the representatives of these various industries have either been mistaken or have been deceiving Congress and the country. There is no interest in the citrus fruit industry of the state \$200,000,000. The duty on oranges is cut in half, the Underwood bill fixing the rate at one-half cent per pound. The duty on lemons is slashed from one and one-half cent per pound to one-half cent. This radical cut, the lemon growers claim, will prove ruinous and rebound to the benefit solely of the foreign importer. Later when due to the frost, the California crop was short, these importers raised the price of foreign lemons higher than any lemon has sold in the American market for years. This demonstrates how little benefit the consumer will receive."

BEEF SUGAR INDUSTRY.
"Let me cite as another example the beef sugar industry. California has within her borders more beef sugar factories than any state in the Union. They represent an investment in the state of over \$20,000,000. The testimony brought out at the hearings shows that the chief

fight for a reduction on sugar, with the removal of all protection within three years, was made by the sugar trust. With the best sugar factories eliminated the individual is indeed gullible who expects the price of sugar to be reduced. Wool is on the free list. Many remember the experience of the wool growers when a Democratic Congress once before tried the experiment. Reductions were made in raising Zante currants and many other California products. No section of the state was benefited. The House bill was bad enough, but the Senate amendments were all to the detriment of California.

"The Senate wine amendment is a notable example. Here is an industry in which is invested \$150,000,000. The imposition of a tax of \$1.10 per gallon upon

of pure California sweet wines will hit the grape grower harder, perhaps, than the winemaker. No foreign nation imposes a similar tax."

HITS WINE INDUSTRY.

"The book for revenue will not be forthcoming. Unless the Californians interested are greatly in error, this tax will work an incalculable hardship upon over 15,000 heads of families now engaged in grape culture and wine making in California. The wine industry is composed of grape growers, as shown in Washington strive to defeat the tax. I repeat to you that the prospects are not any too bright."

"History will be made during the next year. We are about to test out the policy of free trade or tariff for revenue only. The Democratic party went into power on the promise to reduce the tariff and thereby lessen the cost of living and curb the trusts. It will soon be demonstrated whether flooding this country with foreign goods and products will fill the market basket for less, work no injury to our farmers and manufacturers, and result in no discontinuance of prosperity. On August 1, according to the Secretary of the Treasury, merchandise to the value of \$104,576,937, was in warehouses awaiting the passage of the Underwood bill when the duty would be much less. If this bill before its passage gives such an impetus to foreign importations, it can be imagined what the result will be later."

BANKING AND CURRENCY.

The new banking and currency bill was introduced in the House the day before I left and I have a copy with me. It is as reported from the Democratic caucus, where of late all legislation is done in secret. The bill contains some good ideas, but under its provisions it is possible to build up the greatest political machine in the history of the country. The federal reserve board provided for in the bill, will control every national bank in the country and all state banks which choose to come in under the new law. The power of such a board, composed of seven men, but one of whom need have banking experience. The members of this board are the Secretary of the Treasury, the Secretary of Agriculture, the Comptroller of the Currency and four citizens selected by the President. It is not a non-partisan body. It will be controlled by each administration. While personally I have sufficient faith in President Wilson to believe that he would not try to use this board for political purposes, it will be difficult to prevent politics from being injected into its deliberations."

"But the House Banking and Currency bill will not be the measure that will become a law. The bill will be made in the Senate and conference. Everyone hopes that eventually a conservative and workable law may be enacted for it is universally admitted that our banking laws are at present in need of revising."

NEW BANKING LAW.

"President Wilson is particularly anxious that this Congress enact a new banking law fearing financial disturbances when the tariff bill is in operation. Many are of the opinion, however, that it is preferable to have no law at all than to enact a measure that will be no improvement over existing laws."

Asked concerning the Mexican situation Congressman Knowland said: "I think I can safely say that Congress is behind President Wilson in his commendable efforts to peacefully solve the complicated situation in Mexico. Intervention should come only after we have exhausted every other means of bringing about peace. It is regretted that the mission of Confidential Agent Lind was a failure. It is rather galling to Americans to be compelled to admit that we are unable to protect our citizens, urging those in Mexico to desert their interests and flee from the country. Unless something is done soon I fear that foreign nations will insist that we permit them to take a hand, which we cannot do, of course, unless we are ready to admit that the Monroe Doctrine is no longer to be upheld. In the meantime we must be patient, holding ourselves in readiness for any emergency. The situation in Mexico should be illuminating to those Americans who are opposed to maintaining an adequate navy."

KEELER IS GUEST OF WRITERS' CLUB

Poet Talks Before Literary Folk at Key Route Inn Banquet.

Literary and club folk attended the banquet given last evening by the California Writers' club at the Key Route Inn, where Charles Keeler, the poet, was the guest of honor. Upon the eve of his departure for the East, he was the inspiration of many compliments. NEW COUNTY MAPS BEING PREPARED

Surveyor Haviland Is Making Ready to Meet Redistricting Plans.

The change in the supervisory district of Alameda county, which will place different territory under the wings of the different judges of the county's destinies, is being planned under the direction of County Surveyor P. A. Haviland, who today began work on maps which will be submitted to the board shortly redistricting the county.

The board is expected to show each supervisor to represent practically the same number of constituents, and, if adopted, will place each man as the representative of some 25,000 people. The county surveyor is making the map at the direction of the board, and the change is expected to materially affect the county officials.

At present, for instance, Supervisor Foss's districts takes in about half of Berkeley, and a considerable portion of West Oakland. Mullins represents practically all of Oakland's business district; Kelley represents a small strip along the water front of Oakland, and Murphy and Bridge each represent about twenty miles of country district.

Under the redistricting plan Foss will represent all of Alameda county and a portion of East Oakland north of East Twentieth street; Mullins will have a district entirely in Oakland while Kelley will take in a portion of Oakland south of East Twentieth street and all of Alameda. Supervisors Bridge and Murphy will divide the rest of the county.

MRS. GILLINGHAM LEAVES FOR SOUTH

Central Figure in \$100,000 Suit Against Attorney Has Left Town.

Too much publicity has led Mrs. W. B. (Camille) Gillingham to seek shelter elsewhere than the Hotel Athens, where she has resided for the past month. Mrs. Gillingham, who is the central figure in a sensational suit of \$100,000 filed by her husband against attorney William H. Schooner for the alleged alienation of her affections, left word yesterday that she was bound for Los Angeles and quit the hotel.

"I'll send for my luggage later," she told the clerk as she gave up her keys at the hotel desk. "I'm going to Los Angeles to stay with friends and you're not going to hear from me any more. I'm all tired out with this eternal bother, and I'm going out for a while. I have many friends in the south and with them I shall remain."

Mrs. Gillingham persisted in her protestations of absolute innocence. "My relations with Mr. Schooner were the same as with a brother. Nothing more." She denied a report that she had been named as a co-respondent when Gillingham was divorced from a former wife, Rose Gillingham. The present Mrs. Gillingham formerly was the wife of a man named Hunt, whose initials she would not give. "He was auditor for the Great Northern Railway," she said, "and is now dead."

The divorce suit, which was filed in Oakland in June, will come up in the Alameda county Superior Court some time after September 15.

MOTHER OF EIGHTEEN CHILDREN

"I am the mother of eighteen children, and I have a young woman in my town," writes Mrs. C. J. Martin, Boone Mill, Va. "I suffered for five years with stomach trouble and could not eat as much as I desired without suffering. I have taken three bottles of Chamberlain's Tablets and am now a well woman and happy. I feel better than I have in ten years. I refer to one in Boone Mill or nearby and they will tell you for what I say. Chamberlain's Tablets are for sale by Osgood Bros. Drug Store."

Mrs. Workhard (winding alarm clock)—"I always set the alarm for 4 o'clock on Monday morning, so I can make an early start with my washing and get through before dark."

Anty Drudge—"Nonsense. Just you sleep three hours later and then send to the grocer's for some Fels-Naptha Soap. Your wash will be on the line before noon, cleaner than ever before."

In India the women still go down to the river banks and wash clothes by rubbing them over stones.

But they are no farther behind the times than the American women who still boil clothes and hard-rub them on a washboard.

The truly modern way of washing is the Fels-Naptha way. No boiling to weaken the fiber; no hard rubbing to wear and tear. Work saved, time saved, fuel saved, clothes cleaner.

Follow directions on the red and green wrapper.

SULZER PARDONS MAN WHO WRECKED BANK

ALBANY, N. Y., Sept. 2.—An announcement that Governor Sulzer had pardoned Joseph G. Robin, who is serving a term in the penitentiary on Blackwell's island for wrecking the Northern and the Washington Savings Banks of New York, was made at the executive chamber yesterday afternoon, although the pardon was granted last Saturday.

Both friends and opponents of Governor Sulzer regard this proceeding as a court test of the validity of the pardon power of the Governor, in advance of the time set for the convening of the court of impeachment. While Attorney General Carmody was unwilling to discuss the case, it was pointed out that under his recent opinion on the statutes of the gubernatorial pardon, Governor Sulzer is disqualified from exercising the pardon function, pending the result of the impeachment trial.

"I stand on that opinion," said Carmody.

MISTAKEN IDENTITY CAUSES CONFUSION

Claim of Negro Sailor Comes Near Being Paid to Another of Same Name.

WASHINGTON, Sept. 2.—A case of mistaken identity in which the auditor for the navy department confused the records of a white Civil war veteran and a negro sailor of the same name was clarified and settled today by Comptroller of the Treasury Downey.

John Esthur, a negro, of Little Rock, Ark., applied to the navy department for arrears and bounty for service on the battleship Ohio. The auditor credited him with \$21.62 and the claim was about to be submitted to Congress for inclusion in the general deficiency bill when the commissioner of pensions, whose attention had been drawn to the case, advised the auditor that he had credited John Esthur, the negro, with the services of John Esthur, a white man, who served under two enlistments during the Civil war.

The comptroller today ruled that the amount should not be paid, as the auditor's settlement was based upon the white man's record and the latter had never applied for the amount due him.

The plaintiff, who has been handling pianos in cabaret work here, was director of the opera at the Macdonald Hotel, Reno, and had been in similar work in Eastern cities. He testified that he was married one day when he stopped off at Glenora on his way to another city to fill an engagement and that his wife deserted him last August to join a theatrical company now in Philadelphia. Eczema Gone! Acne, Tetter, Rash, Pimples, Carbuncles, Boils—Banished!

The under layer of skin is a fine network of tiny blood vessels in which the famous blood remedy, S. S. S., works with remarkable activity. This is why S. S. S., the best known blood purifier, has such a positive action in the skin. There is one ingredient in S. S. S. which peculiarly stimulates cellular or glandular activity to select from the blood

seals in the skin, those elements which it requires for regeneration. Under the influence of S. S. S. this fine network of blood vessels in the skin is constantly taking from the blood the nutrition required for healthy tissue, and the cause of disease is just as constantly becoming removed, scattered and rendered harmless. These facts are more fully explained in a book on skin troubles sent by The Swift Specific Co., 190 Swift Bldg., Atlanta, Ga. You will find S. S. S. on sale at all drug stores. LATE NEWS FROM RICHMOND

TUNNEL WORK TO
BE STARTED SOONNEW DIRECTOR IS
ON SCHOOL BOARD

Richmond City Council Orders Preliminary Steps for Big Bore.

RICHMOND, Sept. 3.—City Attorney Hall reported at the meeting of the city council last night that the time had arrived when the engineers should submit data to the council on the tunnel project, so that preliminary steps, such as advertisement for bids for the construction of the tunnel can be taken at once. The council committee is making good progress in settling the right of way controversies and as soon as a court decision is obtained in the Michel and Santa Fe cases actual work on the construction of the big municipal tunnel through the west side hills to the bay will commence. The council therefore ordered that Engineer Haviland submit the data and that the city attorney prepare the advertisement at once.

Following the awarding of the tunnel contract the question of the legality to take the tunnel work, was approved and a warrant ordered drawn in payment for \$4750. A board of arbitrators consisting of W. S. McRacken, for the city, a Mr. McNamara of San Francisco for J. H. Foreman, will name a third man to determine damage to the Foreman property on the western portal of the big tunnel.

BONDS AWARDS APPROVED.

The award of the arbitration board for the Bennett property on Oregon avenue, needed for the tunnel work, was approved and a warrant ordered drawn in payment for \$4750. A board of arbitrators consisting of W. S. McRacken, for the city, a Mr. McNamara of San Francisco for J. H. Foreman, will name a third man to determine damage to the Foreman property on the western portal of the big tunnel.

Another movement toward a break in the Santa Fe's holdings here was made last night when a resolution was passed to open Virginia street through the company's holdings.

MUCH STREET WORK DETERMINED.

Opening of Third street over the Santa Fe's right of way is still hanging fire though the money for the work has been collected.

Frank Gardner, H. A. Johnson and E. A. Marshall were named as commissioners to fix damages for the opening of Fifth street over the Santa Fe tracks and J. H. Chandler, Fred C. Schramm, and W. H. Conn for the opening of Eighth street.

On the request of the Point Richmond Commercial club, the city council last evening instructed City Engineer H. D. Chapman to get busy this week on a preliminary survey for the proposed Ocean Boulevard along the waterfront on the outer harbor.

A decision on the class of pavement to be laid on Twenty-third street from Macdonald avenue to Chanslor was put over until next Monday evening. Councilmen Picton and Follett spoke on the needs of the street and it was reported that the high school board desired a first class pavement.

AWARDED CONTRACT.

L. L. Page was awarded the contract for the paving of Twenty-second street south of Macdonald with oil macadam.

The petition for the paving of Thirteenth street from Chanslor to the Santa Fe right of way south was granted and the engineer instructed to prepare the necessary plans.

On the request of Councilman Picton, the engineering department will arrange to have the principal streets in the annexed district sprinkled daily.

CIRCUS PARADE BARS
WAYS TO LICENSE

RICHMOND, Sept. 2.—While the circus parade was blocking traffic on Market street, San Francisco, Saturday, Miss Ruth E. Stutzman of Fresno was making a desperate effort to reach the city hall in time to help her fiancé, Austin E. Lang of this city, to obtain a marriage license so they could carry out their wedding, arranged for that afternoon.

Lang reached the city hall at 10:30. He learned that to get a license he would have to be accompanied by his fiancée; also that the license bureau closed at noon. Lang phoned Miss Stutzman, who was in this city on business, and she hurriedly reached the city hall a few minutes late. The unhappy couple were leaving when a good-natured clerk stopped them and issued the license.

In these national crises where stands Robert Marion LaFollette, the lone reformer of Wisconsin?

J. F. Brooks Succeeds L. D. Dimm on Richmond High Directorate.

RICHMOND, Sept. 3.—J. F. Brooks has been named a member of the board of directors of the Richmond Union High Schools district to succeed L. D. Dimm, resigned. The appointment has just been announced by County Superintendent of Schools W. H. Hoxton, who has announced that he will fill all vacancies of the kind. Brooks is assistant superintendent of the Standard Oil plant here, one of Richmond's foremost citizens and a man highly qualified for the position.

Dimm said that he was loathe to give up his duties on the board but owing to his son attending the state university this year he has taken a residence in Berkeley during the son's tuition there. There is the superintendent of the Standard Oil plant and his interest in and work for the upbuilding of the Richmond schools has been of inestimable benefit to the people here. His successor will get right into the harness in the same emphatic and successful manner and so the High School board is still one of the strongest educational bodies of this city and county. A diploma from the Richmond High is taken at the State University without the holder having to undergo preparatory examination, which is not the case with all high schools.

DARING THIEVES LOOT
RICHMOND HIGH SCHOOL

RICHMOND, Sept. 3.—The drawing room of the high school building was broken into Monday evening and several sets of drawing instruments, tennis racquets and other articles stored there were carried away. The drawing instruments were in lockers protected by Yale locks but these were removed and the contents of the lockers taken away. Principal Tucker is of the opinion that it is the work of boys, as none of the tools in the manual training room were molested as they would have been had the job been by ordinary burglars. The local police department is working on the case. The loss is estimated at \$100, and this is the second time thefts of the kind have taken place at the high school. Every effort will be made to locate the thieves.

SHORT CIRCUIT PUTS
PITTSBURG IN DARK

MARTINEZ, Sept. 3.—The breaking of a small voltage line and the wires falling across the 60,000-volt line of the Pacific Gas and Electric Company near Pittsburg last night short-circuited the entire line, burned out all transformers in Pittsburg, destroyed lines and poles and plunged the town into darkness about 9:30 o'clock. The effect of the trouble was felt at South Tower, where fuses were burned out and general havoc was wrought along the line.

FIXTURES FACTORY IS
ATTACHED BY CREDITOR

RICHMOND, Sept. 3.—Deputy Sheriff William Veale has levied an attachment for \$6000 on the plant of the Sterling Fixture company. The plaintiff in the case is the Sunset Lumber company of Oakland. It is said that the defendant company had been in default of its obligations for some time over disagreements relating to representations made when stock was bought by various parties in the corporation. A few days ago the workmen at the plant quit and made a demand for their wages, but this difficulty was adjusted. Mr. Veale said that the present troubles will be fixed up by a newly organized corporation and that the factory will resume operations again at an early date.

ALLOWED BOND MONEY THAT
THEY MIGHT 'BARGAIN HUNT'

LOS ANGELES, Sept. 3.—The influence of "bargain day" was reflected in the police court this morning when two women defendants were allowed to recover a portion of their bond money so that they might shop at a bargain counter.

Mrs. Lillian Lucas and Mrs. Nan Denkins, who were under bond to stand trial next week on a charge of disturbing the peace, appeared before Justice Fredrickson, explaining that certain articles of which they were in need were "on sale," but that they were without funds and could not make the purchases unless the justice would remit the bail. The justice reduced their bond from \$50 to \$25 each and ordered the clerk to refund the bail.

DRESSES LIKE MAN
AND STARTS ON HIKE

WATSONVILLE, Sept. 3.—"A woman has the right to dress the way she pleases," said Justice D. W. Rohr-

day in dismissing the case against Mrs. Lottia Hanz, of San Francisco, arrested by Constable Cano on a charge of masquerading in male attire. The vagrancy charge against her husband, Henry Hanz, was also dismissed at the same time by the justice.

one of them was a woman. She brought out a marriage license to prove that she was the wife of her companion.

When brought before Justice Rohrman the woman unfolded a story of hardship and poverty which greatly moved the spectators. They were ago and for a time everything went well in the family. But finally Hanz lost his position, sickness, came, and all their savings disappeared. Two months ago he was discharged from the hospital helpless and penniless.

Last Friday they decided to walk to San Diego, where relatives have promised aid. They reached here footsore and weary. They went on their way rejoicing after Judge Rohrman had heard their story.

SAN FRANCISCO WILL BE
PACKET HEADQUARTERS

SAN FRANCISCO, Sept. 3.—The selection of this port as the headquarters and terminus of the Royal Mail Steam Packet Company, which has the largest fleet of passenger and freight carrying steamships in the world, was announced yesterday by E. J. M. Nash, American representative of the famous British corporation.

Nash arrived from London in the morning and quickly began preparations for the bringing of the great vessels through the Golden Gate. In addition to the hundreds of floating palaces now plying between various ports in every habitable section of the globe, it became known that nine great steamships are being especially constructed for the tremendous traffic that will flow between European capitals and centers of trade and commerce as the Panama canal is thrown open to shipping.

CHICAGO HEAT GOOD EXCUSE
FOR KIDS TO "PLAYHOOKEY"

CHICAGO, Sept. 3.—With the thermometer at 97, about 20,000 children "played hooker" yesterday, the first day of school, according to estimates of absentees made by the assistant superintendent of schools. There was a gentle breeze from the southwest that barely made a ripple on the lake and thousands of youngsters of school age were playing on the beaches and in the parks when they should have been getting acquainted with their new teacher.

Despite the oppressive heat the enrollment was estimated at 300,000. School authorities do not expect a full enrollment until the arrival of cooler weather.

In the American districts, according to Superintendent Ella Young Flagg, it was noticeable that children were absent. A full registration was made from nearly all the foreign districts of the city.

TAFT SAYS JUDGES SHOULD HOLD FOR LIFE

Addresses American Bar Association on Issue of His Campaign.

Says Selection Can Be Made Without Interfering With People's Rights.

MONTREAL, Sept. 3.—William H. Taft in an address last night before the

association, returned to one of the main issues of the campaign in which he was defeated for re-election, and advocated greater independence of the judiciary. His subject was "The selection and tenure of judges." He argued that judges should be appointed instead of elected, and that they should hold office for life. "The greater the independence of the courts," said Taft, "the stronger their influence, and the more satisfactory their jurisdiction and the administration of justice."

most difficult problem is to determine a satisfactory method of selecting the members of its judicial branch. CAN BE POPULAR. Selection of judges by appointment, he declared, did not altogether deprive the people of the right of selection. "The selection can be really popular, without resorting to an election. The chief executive elected by the people to represent them in executive office does in appointing a judge, execute the popular will. In every country of the world, except the cantons of Switzerland and the United States, judges are appointed and not elected."

Taft admitted that the United States had many able judges by election; but, he pointed out, in many states the practice prevailed of re-electing good judges without contest. Any good that might have been derived from the elective system, however, promised to be lost, he asserted, with the more general adoption of the direct nomination system.

CONDUCT OUR CAMPAIGN. "Like all the candidates for office to be elected under such conditions," he said, "judges are expected to conduct their own campaigns for nomination to pay the expenses of their own campaign in the primary, and insofar as any special effort is to be made in favor of their nomination and election, they are to make it themselves. They are necessarily put in the attitude of supplicants before the people for preference to judicial places. Under the convention system it happened not infrequently, for reasons I have explained, that men who were not candidates were nominated for the bench, but now in no case can the office seek the man. It is a matter of the quality of lawyers available as candidates or deprecate the standard of the judiciary. I affirm without hesitation that in states where many of the elected judges in the past have had high rank, the introduction of nomination by direct primary has distinctly injured the character of the bench for learning, courage and ability."

DISGRACEFUL CAMPAIGNING. "The result of the present tendency is seen in the disgraceful ever-renewed campaign for the place of state supreme judge and asking for votes on the ground that their decisions will have a particular class favor."

In advocacy of a life tenure for judges, the ex-president said that only by this means could the judiciary be hedged around with "immunity from the temporary majority in the electorate and from the influence of a partisan executive or legislature."

"This immunity, now enjoyed by federal judges, is a very real and effective barrier against some effort in making Congress grudge any betterment of the compensation to these great officers of the law."

"Nothing but the life tenure of the federal judiciary, its independence and its power of usefulness have made it possible, with such inadequate salaries, to secure judges of a high average in learning, ability and character."

In conclusion Taft pointed out that if a judge, appointed for life, proved unworthy, there always was the remedy of impeachment. He advocated, however, a change in the mode of impeachment so as to reduce the time required of the Senate in such proceeding.

CONTROL BOARD TO BUY SECURITIES OF STATE

SACRAMENTO, Sept. 3.—Acting under a law passed at the last session of the legislature, the State Board of Control has inaugurated a system of buying bonds with the State's money instead of placing it in the banks. The new law, which enabled the Board of Control to use money in the general fund, provides that the Board may declare 75 per cent of the lowest cash balance taken on any one day during the preceding twelve months as available for investment. Previously the board could invest only the surplus in the school and other smaller funds. Under the act the Board of Control and State Treasurer have practically agreed on a policy that will materially lower the amount of State money deposited in banks of California for which an average rate of 2 1/2 per cent interest is paid. "It will be better for California money at 4 and 5 per cent interest than to deposit in State banks where 2 1/2 percent is the maximum obtained," said F. H. Bloodgood, a member of the Board of Control yesterday.

ORIGINATOR OF TRADING STAMPS PASSES AWAY

NEW YORK, Sept. 3.—Thomas Al. Sperry, originator of the green trading stamp, died here yesterday morning from pneumonia. Sperry had just built a magnificent home, costing \$500,000, at Cranford, N. J. He had been a traveling salesman and merchant when he conceived the idea of the trading stamp. After trying it out in his own store he had his device patented in 1897, and gave the rest of his life to its promotion. It made millions of dollars for him.

CHURCHES WILL DIVIDE BERKELEY

Federation Devises Plan to
Prevent Overlapping of
Efforts.

BERKELEY, Sept. 3. — A plan for
districting the city to prevent entangle-
ment of work by different churches was
considered at last evening's annual meet-
ing of the Berkeley Federation of
Churches. The following officers of the
federation were elected for the ensuing
year.

President, Rev. Harry R. Miles, pastor,
First Congregational church; vice-presi-
dent, Rev. W. B. Hodson, vicar of the
Anglican church; secretary, Rev. J. H. Dyer,
pastor of the First Baptist church; and
treasurer, Rev. G. D. Young, pastor of
the First Methodist church.

Rev. Edward Lamb Parsons, rector of
St. Mark's church, in the parish house
of which the meeting was held, broached
the subject of a districting of the city.
He called attention to the fact that there
is a wasteful overlapping of effort in the
work of the several churches toward
reaching non-church goers. He believed
this could be remedied by a districting
of the city, each church to have assigned
to it a definite district. The plan met
with much favor and a committee was
appointed to delay definite resolution
until Dec. 1, when it is a leader in the
Sunday closing movement in this State,
confers with other organizations.

MOTOR RUNS AMUCK; CRASHES THROUGH WINDOW OF STORE

SAN LEANDRO, Sept. 3.—A delivering motorcycle refused to obey
the guiding hand of its driver, Elroy Quinn, yesterday, and jumping the
sidewalk crashed into the Herscher mercantile store on San Lorenzo
avenue. The heavy machine smashed the plate glass window and sent
the display contents. With the wheels whirling round at full
speed the motorcycle executed a lively tango to the detriment of the
shop goods.
Quinn, who jumped off his machine as it made a dive for the side-
walk, chased after it and managed to shut off the power, but not be-
fore the motorcycle had made itself as destructive as a bull in a china
shop. Quinn escaped with a cut hand.

MOOSE TO PAY FOR BOXING SHOW LICENSE

Alameda Councilmen Refuse to Grant Lodge Free Permit.

Alameda, Sept. 3.—Upon a technical ruling of the license ordinance the city council last night decided that the Alameda Lodge of Moose must pay a license of \$50 for its boxing exhibition.

The majority of the city fathers were stern, however, and the regular \$50 fee must be paid into the city's coffers.

Councilman E. J. Probst, when a report was received from the license committee recommending that the permit be granted, but that the license be paid, declared that he believed a free permit should be given.

"I do not believe we can stretch the city charter to such an extent," declared Councilman George W. Stewart, chairman of the license committee.

A city attorney spokesman was asked for a ruling and he said that the license ordinance, not the charter, provided for gratuitous licenses for the lodge, the hall, the poor and the aged, but not for lodge boxing exhibitions. He said the license should be paid.

"I would not stand for a prize fight or knockdown proposition," said Councilman Morganstern, "but this is to be a boxing exhibition. I think we should grant a free permit."

Councilman F. H. Bartlett thought that a free license could not be granted legally.

Councilman Probst moved that the license committee's recommendation be adopted, with the exception of the provision requiring the payment of the license. The vote stood 4-2.

After the first vote was taken Councilman Morganstern remarked, "Where is the solid six now?"

SPECIFICATIONS BRIEF. Probably the briefest specifications ever adopted in this city were passed last night by the city council in advising for bids for a second auto fire engine.

The Watson Engine Company has offered the city a machine at a special rate of \$1000. In order to purchase the engine, however, bids must be advertised for and City Attorney Samuel Pomeroy Jr. prepared the following brief specifications:

Engine must specify gasoline motor-propelled engine, carrying a gasoline motor-driven pump of a capacity not less than 500 gallons per minute.

The city clerk was directed to advertise for bids at once.

WOULD RETAIN BILLBOARD TAX. Councilman A. L. Morganstern said that he was willing to allow the ordinance to go over for further consideration, but Councilman F. H. Bartlett objected to further consideration.

The measure was adopted, Councilman Probst being the only member to vote in the negative.

Sophocles Flees Before Hammer "Electra" Is No Match for Workman

ELECTRA HAS A NATURAL SETTING ON U. C. CAMPUS. MARGARET ANGLIN (WITH PROMPT BOOK) REHEARSES HER COMPANY FOR THE GREEK THEATRE PRODUCTION OF SOPHOCLES' DRAMA. THE COMPANY WAS DRIVEN FROM THE THEATRE BY THE NOISE OF CARPENTERS' HAMMERS AND SAWS.

UNIVERSITY OF CALIFORNIA, Sept. 3.—Sophocles and a group of carpenters waged bitter conflict at the Hearst Greek Theatre stage yesterday afternoon and the former was finally routed. Miss Margaret Anglin and the other protagonists of the parts in his "Electra" fled at last in dismay from the crashing of lumber and the din of hammers where steps are being erected for Saturday night's performance, to the quieter spot beneath the shade of the trees that are the vanguard of the theater.

Here, amid most unusual surroundings, the rehearsal proceeded. Both Miss Anglin and the several members of her company are so determined to put the finest touch to their playing Saturday night that they are losing no moment in which practice may make perfect.

HULL'S ARGUMENT UNAVAILING. Howard Hull, Miss Anglin's husband, expostulated in vain with the carpenters

when he and the company appeared and found them at work. If the steps permitting the utilization of the orchestra by the players were to be finished, their work would have to continue, rehearsal or no rehearsal. They went out.

The shade of the eucalyptus in the rear of the theater proved an excellent background for the rehearsing, but the sylvan spot swept in from the bay were here almost as bothersome as the carpenters' noise had been below. The stage director shivered in silence for awhile, the prompt book shaking in his blue fingers, but he finally sought warmth in his overcoat and followed that by backing up to the lee side of a tree.

Miss Anglin moved through her scene hatless for awhile, her black straw with its big bow of black ribbons being left to flap to and fro in the breeze on a handy fence post. But the wind was too rough with her hair and she finally returned the

hat to its place. She wore a blue suit through the rehearsal with a jacket braided at the edge.

PLEADS WITH PHOTOGRAPHER. "Please don't photograph me in this suit," she pleaded with the photographer. "It's my working suit and it's two years old and I don't want it to show in the picture."

"The eternal feminine," her husband commented.

The rehearsal proceeded through most of the afternoon and was resumed this morning.

The sale of seats for Saturday night's production has been exceptionally heavy, and it is expected the theater will be filled to the gates. A special price made to students of the university resulted in a heavy advance sale of student tickets, and a similar demand by the public has been in evidence since the tickets were offered at the usual places yesterday morning.

SEES BIG TASK AHEAD OF U. S.

Immigration Problem Must Be Definitely Studied, Says University Speaker.

UNIVERSITY OF CALIFORNIA, Sept. 3.—The Federal government is totally unprepared to care for the immigrants the canal will bring, according to Immigration Secretary C. W. Blomquist of the San Francisco office.

Blomquist analyzed the immigration situation throughout the west. More foreigners remain in California than in the northern cities of the coast, he declared. Mexicans predominate in Los Angeles, Russians in Fresno and Portuguese in Alameda county. The speaker emphasized the need of caring for the immigrant population.

"The agricultural opportunities form the most constructive outlet for immigrants," he said. "They must be released from large holdings and put within the reach of the small farmer."

"The housing and sanitation conditions are far from the best, especially in San Francisco is the tenement and overcrowded house problem pressing. Sanitation is practically a negative quantity and fresh air is lacking. When compared with the most congested conditions of the east this western does not seem very dark when compared with the amount of room we have on the Pacific coast. It shows how negligible we have been regarding the kind of houses in the west and how much we have to do."

TO ELECT CHARTER FREEHOLDERS SOON

ALAMEDA, Sept. 3.—Preparations for the calling of an election for the naming of a board of freeholders to frame a charter for the city of Alameda will be completed by the city council at a special meeting of the committee of the whole of the city council.

Councilman A. L. Morganstern, chairman of the committee, said that the committee had decided to call an election for a board of freeholders to frame a charter for the city of Alameda.

HEYWOOD TO CALL OWNERSHIP MEETING

Municipal Acquisition of the Public Utilities Favored by Mayor.

ALAMEDA, Sept. 3.—The State Railroad Commission is to be asked by the City Council to request the Southern Pacific company to furnish Alameda with direct connection with main line trains at an extra fare, as now required.

Councilman F. H. Bartlett reported at the meeting of the city council last night that Alameda is isolated from main-line trains between the hours of 9 a. m. and 4 p. m. when the horseless trains are not in operation.

Main-line tickets will not be accepted on the cross-town cars of the Southern Pacific because of the controversy between the company and its operators about water schedules. The controversy is resolved as a direct car fare and the operators are not in the same category as main-line employees.

Councilman Bartlett recommended that the city attorney file a formal complaint with the railroad commission, asking redress. He said that he believed Alameda residents should be able to enter or leave the city via the Southern Pacific, without paying an extra fare, when going to or leaving main-line trains.

"We should not publicize this matter, but take it before the railroad commission immediately," asserted Councilman Morganstern.

Councilman Bartlett also reported that to a conference with Charles S. Fee of the railroad company that he had been informed that no transfers would be issued from local suburban trains to the cross-town cars, as had been requested by residents of the west end.

DILLON AND KING TO APPEAR AT BROADWAY

Today at the Broadway Theater, Dillon and King, who last week closed their Columbia Theater, are presenting their former comedienne, Blanche Trelease and their vaudeville new act, an act called "The Vaudeville Revue."

The Broadway is announcing the coming of the act, which will appear last four days of this week to see and hear their old-time favorites. In addition to this act there are five other vaudeville acts in all makes a vaudeville offering that is far above the average usually seen in the "pop" vaudeville houses.

RAILROAD TROUBLE AGAIN DISCUSSED

Southern Pacific Will Be Asked to Furnish Alameda With Better Service.

ALAMEDA, Sept. 3.—The State Railroad Commission is to be asked by the City Council to request the Southern Pacific company to furnish Alameda with direct connection with main line trains at an extra fare, as now required.

Councilman F. H. Bartlett reported at the meeting of the city council last night that Alameda is isolated from main-line trains between the hours of 9 a. m. and 4 p. m. when the horseless trains are not in operation.

Main-line tickets will not be accepted on the cross-town cars of the Southern Pacific because of the controversy between the company and its operators about water schedules. The controversy is resolved as a direct car fare and the operators are not in the same category as main-line employees.

Councilman Bartlett recommended that the city attorney file a formal complaint with the railroad commission, asking redress. He said that he believed Alameda residents should be able to enter or leave the city via the Southern Pacific, without paying an extra fare, when going to or leaving main-line trains.

"We should not publicize this matter, but take it before the railroad commission immediately," asserted Councilman Morganstern.

Councilman Bartlett also reported that to a conference with Charles S. Fee of the railroad company that he had been informed that no transfers would be issued from local suburban trains to the cross-town cars, as had been requested by residents of the west end.

STANFORD SOPHS DOWN FRESHIES

Battle for Supremacy Fought
Out on Lawns and Big
Geranium Bed.

STANFORD UNIVERSITY, Sept. 2.—Freshman green was the predominating color on the Stanford campus for a while late last evening; but when the second year men successfully gathered together the green changed to a glistering sophomore red. The two spacious lawns and geranium beds in front of the Stanford library were the scene of the fiercest and best organized fight between freshmen and sophomores in the history of the present Stanford generation. More than 500 undergraduates participated in the free-for-all fight and only a few of either class escaped being drenched to the skin.

The freshmen made their attack on a Palo Alto crowd first and it looked for a while as though the freshmen would win the fight, but the fraternity and dormitory recruits made a rapid charge in the apparent outcome of the fight. In several instances the combatants ducked their own men, for the only fight on the field was furnished by automobile headlights. When the freshmen lost control of the faucets and hoses they began to strip what sophomores they could to keep them out of the fight. After nearly an hour and a half of fighting the freshmen took to their homes and the sophomores went up the row to serenade the sorority houses and tell the co-eds of their prowess.

From present indications the annual underclassmen tie-up rush to take place on the football field Friday afternoon will be one of the hardest fought in the history of Stanford athletics. Both classes are organizing their forces well and promise an interesting spectacle.

COP'S GUN ENDS BUNNY HUG DANCE

Sent to Prevent Disorder He
Opens Fusillade and
Stops Festivity.

PHILADELPHIA, Sept. 2.—Strenuous with fight, scores of women and children dashed for safety when policeman John Cella, of the Nicetown station, used his revolver to suppress the dancing of the crazy bear, the bunny hug, and the turkey trot in Bristol street.

Cella suppressed the dancing. He did more. A black party, in full swing at 1771 Bristol street, came to an abrupt end with the sound of the first shot, and Cella is likely to find himself invited to a session before the police board. Residents of the neighborhood, aroused by the shooting, said they would make complaint against the over-anxious cop.

The black party was being held in aid of the order of Redmen. A crowd of it and it was not long before the overenthusiastic began the hug dances. Mrs. M. Young men and women began to dance. J. S. Sullivan, chairman of the committee in charge, fearful that the dancing would spoil the party, called up the police station and asked that a policeman be sent.

Cella was dispatched to the scene. He commanded the dancers to halt. Some of them got scared and started to run away. Cella told them to stand still. They only ran the faster. Drawing his revolver, Cella fired five shots after the fleeing dancers.

Refreshment booths were deserted in a twinkling. Mothers gathered their children in their arms and rushed into the nearest house. Men scurried around the corner. In just about five seconds Police-man Cella and his gun had the street to himself.

Afterward Cella arrested William McCanney, John Corbin, Timothy Fitzgerald, Riley Lennon and Harry Bormand, young men of the neighborhood on a charge of creating a disturbance. They were admitted to bail.

NURSES OPPOSE EIGHT-HOUR LAW

New Hospital Organization Is Formed; Measure Declared Unconstitutional.

Nurses in the different hospitals about the bay propose to work as long as they please, and have organized to uphold this right. A strong organization to fight the eight hour law, as it applies to hospitals, has been formed in Oakland and San Francisco, among the hospitals being represented being St. Luke's, Mount Zion and the City and County hospitals of San Francisco the Merritt Hospital and the East Bay Sanitarium in Oakland.

The hospital authorities claim that the law is unconstitutional and the nurses declare that they are students and not employees, and do not come under the law any way. They also say it works unnecessary hardship and endangers the lives of patients.

Dr. Adolph Rosenthal is president of the organization, which is comprised of hospitals, nurses and physicians. Miss Gertrude Courtwright, treasurer of the association, who is associated with the East Bay Sanitarium said today: "We all believe that this law is a very bad one. According to its interpretation, a student nurse may not work more than 45 hours a week."

"This necessitates constant changing of nurses for the patients and in many cases where it is absolutely necessary that one individual nurse should care for the patient and study the case, we now have to let from five to 20 different nurses look after a patient and thereby jeopardize the lives of the suffering."

"I believe that within a very short time all the hospitals will stop obeying the law and thereby force arrests and a test case."

SPEEDING AUTOIST GUILTY

SANTA ROSA, Sept. 3.—Richard Hayward, charged with driving an automobile while intoxicated, pleaded guilty today before Judge Seawell and will be sentenced Saturday. Hayward drove through Petaluma at a furious pace and struck a runaway, seriously injuring a boy and a girl in the machine.

HONOR GAYNOR WITH PARADES

Demonstration Given in Interest of Independent Candidacy.

NEW YORK, Sept. 3.—Supporters of Mayor William J. Gaynor organized an unusual demonstration in his behalf today when parades were formed in many parts of the city to converge at noon in the City Hall plaza, to hear Mayor Gaynor give his answer to the proposal that he seek re-election this fall on a wholly independent ticket to compete against both fusion and Tammany candidates.

Mayor's answer would be "yes," for he has already said as much, but it was expected that many thousands of his friends would be on hand to hear him say so formally. Jacob H. Schiff, Herman Ridder and R. Ross Appleton were chosen to notify the Mayor that he had been nominated on his own ticket, these addresses and the Mayor's reply being arranged for the open air, from the city hall steps. The various parades engaged fifty bands to make the demonstration a rousing one.

One large battalion of paraders starting from the Bronx borough carried shovels, the implement chosen by the Gaynor supporters as his political emblem, indicating the Mayor's starting the digging of the new subway.

CARS COLLIDE AND NINE ARE INJURED

LOS ANGELES, Sept. 3.—Thirty persons returning to their homes in the hills back of the business center were jumbled in the wreckage of two inclined plane cars last night at the base of Angels Flight. Firemen were compelled to cut away the wreckage before rescuing the passengers. Only nine were hurt, mostly by cuts and bruises.

The cable supporting one of the cars broke with a snap. The car shot downward on the sharp angle of the plane. With a crash of breaking glass and splintering wood it bumped into its twin car, jumbling cars and passengers into a wangle of wreckage.

Investigation indicated that the front axle of the runaway car had broken, jerking the cable until that, too, gave way to the weight of the car and passengers, heightened by the high grade of the tracks.

BEGINS ATTACK ON 'HARD COAL TRUST'

Attorney-General McReynolds Files Suit to Dissolve R. R. Control.

PHILADELPHIA, Sept. 2.—Attor-

most important attack on the "hard coal trust" was begun here today with the filing of a civil suit for the dissolution of the Reading Company's control of coal mining and coal carrying roads—the most potential combination in the anthracite fields.

The Reading Company, with its subsidiary and allied corporations, including the Central Railroad of New Jersey and certain of their officers and directors are charged by the federal government with violating both the Sherman anti-trust law and the commerce clause of the interstate commerce act, in an attempt to monopolize the production and transportation of anthracite.

This combination, controlling at the present time 63 per cent of the entire unmined deposits of anthracite and marketing about 30 per cent of the annual supply, will own or control in time, if not dissolved, the attorney general warns, "every ton of commercially available anthracite known to exist."

Today's suit is the second step of the Department of Justice to solve the "hard coal trust" situation since the decision of the Supreme court last December canceling the so-called 65 per cent contracts and ordering the dissolution of the Temple Iron Company.

VICIOUS SALOON PORTER KNIFES TUNNEL MAN

SAN FRANCISCO, Sept. 3.—Patrick E. O'Malley, a tunnel laborer on the Northwestern Pacific Railroad, died at the Harbor Emergency Hospital late yesterday from knife wounds received in a brawl with Fred A. Smurl in Hourihan's saloon, 140 Third street. Smurl escaped, but was arrested last night by Detectives Regan and Manion. He was intoxicated and professed to know nothing of the killing.

Although Cornelius Dugan, who manages the saloon for L. R. Hourihan, said Smurl was not employed in the place, and that he did not even know the man's name, the detectives learned that the man worked as porter in the saloon and attended to the free lunch. O'Malley and Smurl quarreled when the former demanded a chair to sit on while he was eating his lunch. Smurl stabbed his victim with a sharp bread knife and then cut his throat.

Employees at the saloon made every attempt to withhold the details of the murder and declared they knew of no trouble.

Professor Heath devoted considerable time to observing the auk which, he states, is a nocturnal bird about the size of a large pigeon. Upon his trip Professor Heath investigated the report that native Alaskan birds were destroying the king salmon, a mission he conducted for the Audubon society.
